

IGLC 26<sup>th</sup> Annual Conference  
Chennai, INDIA – July 16-22, 2018

*Evolving Lean Construction – Towards  
Mature Production Management across  
Cultures and Frontiers*

## IGLC KEYWORDS

Christine Pasquire and Iris D. Tommelein

The following keywords provide the selection of words relating to Lean construction. They are arranged under generic words and words particularly (but not exclusively) associated with each of the research themes.

Authors of papers for the 2018 conference (IGLC26) are requested to select at least three keywords from this list and can add their own keywords to a maximum of five in total.

### **Generic Keywords:**

benefits realization	flow	sustainability
big room/obeya	integration	transformation
collaboration/collaborative	kanban	value
complex/complexity	process	value stream
concurrent	production	variability
continuous	pull	visual management
improvement/kaizen	re-entrant flow	waste
last planner system	standardization	work flow
lean construction		

### **Themed Keywords:**

<b>contract, cost management</b> alliancing cost led procurement integrated form of agreement (IFOA) integrated project delivery (IPD) open book relational target cost transactional.	<b>prefabrication, assembly, open building</b> customization, flexible manufacturing tolerance.  <b>product development, design management</b> Choosing by Advantages (CBA) set based design (SBD) Target Value Design (TVD).	<b>production system design</b> inventory control job-sequencing location-based management (LBM) logistics takt time planning (TTP) work structuring work in progress/process.
<b>people, culture, change</b> action learning collaboration commitment language/linguistic action perspective, promise, trust.	<b>production planning, control</b> buffer, constraint analysis lookahead, make ready time compression.	<b>safety, quality, environment</b>  <b>supply chain management (SCM)</b>  <b>theory</b>
